The Premier Health Advisory Serving Families and Individuals

Our firm

PinnacleCare has every tool to meet a member's desire from the healthcare system. PinnacleCare, the premier health advisory firm, serves families, individuals and senior executives, connecting them to the world's leading specialists, advising them on all medical issues, supporting any medical emergency and managing their interactions with the healthcare system. Each member is assigned a personal PinnacleCare Advisor available 24/7 who coordinates the member's healthcare wishes and PinnacleCare's resources, consolidates all records into PinnacleCare's Electronic Health Records solution for instant availability, conducts best practices research and collaborates with top medical specialists worldwide.

In operation for nine years, PinnacleCare has grown from a circle of four founders to greater than 130 employees in offices throughout the US and Europe, serving more than 3,000 members around the world. PinnacleCare's roots are in serving family offices and PinnacleCare has also formed strategic partnerships with organizations including Morgan Stanley Smith Barney, Northern Trust, and YPO-WPO (the premier global leadership network). Many family offices use PinnacleCare to provide peace of mind for every family member.

Our unique features

PinnacleCare is the ultimate concierge in the world of medicine and healthcare. PinnacleCare members have control of the medical system, instead of vice versa. PinnacleCare is the leader of the developing industry intended to help meet the strong demand, nationally and internationally, of those seeking the highest quality of medical support and solutions for themselves and their families.

PinnacleCare is the only company to offer comprehensive health advisory – from disease prevention and wellness management to superior medical response and treatment options in times of good health, emergency, injury or illness. PinnacleCare has the tools to meet any member's wishes from the medical system.

PinnacleCare is the only company that actively collects, organizes, and maintains a comprehensive health history for each member from every medical provider. Completed medical records are updated and organized, and securely stored for immediate access by the member

or an approved provider. All the work is done for the member. The burden is entirely assumed by PinnacleCare.

Our strengths

PinnacleCare's team of more than 130 employees includes physicians and PhD level researchers providing objective information on every medical question. PinnacleCare experts are available 24/7 to address any question or need. PinnacleCare is backed by a prestigious PinnacleCare Medical Advisory Board comprised of some 60+ renowned physicians who provide insights on the latest research, clinical trials, and treatments covering the full spectrum of illness categories. In addition, PinnacleCare has standing relationships with the world's leading hospitals and medical research centers, which are at the forefront of research and medical breakthroughs and connect PinnacleCare members with the best treatment options for their needs. PinnacleCare then obtains facilitated access to the physicians and institutions the member chooses.

Our typical client

Many of PinnacleCare's Members choose to associate with PinnacleCare because they are used to having trusted, independent advisors for everything that is important and complex in their lives. They have advisors for investments, estate planning, taxes, risk management, and other important and complex parts of their lives. With healthcare being perhaps the most important and most complex aspect of their lives, they missed that same level of independent advisory and support for their medical needs.

Typical clients may meet but are not limited to the following criteria:

- Make health a priority
- Are used to working with the best of everything
- Travel domestically or internationally for business or pleasure
- Own multiple homes
- Have children away at school
- Have parents who are facing health issues and challenges
- Have a health issue or multiple health concerns causing ongoing stress in family life
- Need a second or third expert opinion for a medical diagnosis

- Are healthy and want to do everything possible to maintain their good health
- Want to know more about Complementary and Alternative Medicine, such as naturopathy and homeopathy
- Family members who are struggling with alcohol or substance abuse and/or mental illness, such as depression or bipolar disorder in the family

Little-known facts about our firm

65% of PinnacleCare members are healthy, and looking to optimize and protect their health.

PinnacleCare has preferred agreements and arrangements in place with leading hospitals for members to take advantage of expert virtual second opinions from world renowned medical institutions without having to leave their homes.
